Projects

Portfolio Website

Live Website

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, certifications, and professional profiles.
- Built the website using HTML, CSS, and JavaScript with responsive layouts and interactive user interface elements.
- Added animations and modern visual effects to create an engaging user experience across desktop and mobile devices.
- Deployed the website using a custom domain to provide a centralized platform for showcasing development work.

Expense Tracker Ledger

GitHub | Live Demo

- Developed a web application for tracking and managing personal income and expenses.
- Built the user interface using React.js, Vite, JavaScript, and Tailwind CSS.
- Integrated Supabase for backend services and database management.
- Designed an organized interface to help users monitor their financial activity efficiently.

Certifications

- Responsive Web Design** — freeCodeCamp September 2026
- Data Analytics Job Simulation** — Deloitte Australia June 2026
